

EANO 2018

WINTER SCHOOL

Complications of primary and secondary brain tumors:
prophylaxis, diagnosis, treatment and follow-up

SAVE THE DATE

MARCH 16 - 17, 2018
ATHENS / GREECE

The **EANO Winter School**, dedicated to **EANO Youngsters**, aims provide up to date educational content on the clinical management of common complications in patients with primary and secondary brain tumours, including the possibility of discussing clinical cases and issues from everyday clinical practice. The educational event is aimed to attract physicians and health care professionals with a special focus on managing primary and secondary brain tumour patients.
